Introduction

- Students are suggested to keep the introduction to the problem short, clear and crisp.
- Maximum two slides can be used for introduction.

Literature Review

- Student should review 4-6 full-length journal or IEEE conference papers.
- One detailed slide per paper should be made for atleast 4 papers
- Finally a summary table has to be created for literature review.
- The next slide can be used as a template.

Outline

- 1 Introduction
- 2 Literature Review
- 3 Literature Review (Paper 1)**
- 4 Summary of Literature Review
- 5 Research Gaps
- 6 Problem Statement

- 10 Disclosure Statements

Template of Literature Review

Title of the paper [1]

Problem statement

Main contributions

List the contributions of the paper

Inputs and Outputs

Requirement analysis (if any)

Methodology

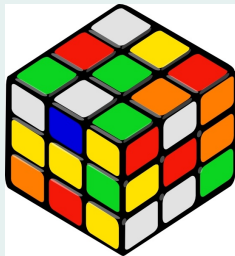

Figure: Method in the paper

Summary of Results

Main results (table or figure format preferred).

Major Findings

Identify the major finding of the paper

Tools and Technology used

List the tools/technologies/algorithms used

Research Gaps

Summary of Literature Review

Observations made from literature review

Gaps

- First gap
- Second gap
- Third gap
